Walk behind burnisher

The Nilfisk UHB 51-1500 represents the very latest and most technically advanced means of restoring and maintaining a high gloss shine on floors.

The many improved features include easier-than-ever operation, added safety considerations, passive and (optional) active dust control.

The biggest difference, however, between the UHB 51-1500 and its competitors is performance. For medium/large hard floors, nothing compares to this outstanding and truly well designed burnisher.

With typical Nilfisk attention to detail, the UHB 51-1500 has the right handling, accurate pad pressure, and superb dust control to produce a professional finish with value-adding productivity gains.

PRODUCT FACTS

- Simple controls and low profile design make operating the unit easier and safer.
- Self regulating pad pressure eliminates the need for adjustments & reduces operator errors.
- The burnishing deck automatically lifts when the motor is turned off for better floor protection.
- On board battery charger saves downtime and adds convenience.
- Excellent active dust control with HEPA filtration optional for dust sensitive areas
